Andis

One brand. Any animal. Every tool.

Passionate people love what they do. And that's exactly what we see in professional animal groomers who select Andis tools. We watch and learn to see how professional groomers work, the conditions in which they work and the unique requirements of the animals entrusted to their care. That kind of understanding enables us to develop products that not only clip, trim, shear and feather, but also work in your hands comfortably and reliably—day after day.

The right product for every animal and every situation. Fine hair or coarse hair. Corded or cordless. Lightweight or substantial. These are just a few of the things we consider when developing our products. You'll find a wide range of medium-, heavy- and super-duty clippers and trimmers, perfectly engineered to meet the grooming needs of every animal.

After nine decades we know that curiosity breeds great ideas. In our case, it's one for every animal and for every way you work. We invite you to share the Andis legacy.

Colors as vibrant as you.

Andis has taken some of its most popular animal clippers and blades and injected them with the fun, bright colors you want. Like our ProClip UltraEdge® Super 2-Speed detachable blade clipper now in six great colors.

ProClip UltraEdge™
2-Speed Clipper

Blades now in colorful EGT™ Finish which feeds hair smoothly and reduces corrosion. See page 14

Control + color!

Looking for something with even more control? Consider the ProClip Excel™ 5-speed. It features a lightweight design and five total speed settings—now in five great colors. Or maybe you prefer cordless? Our Pulse Ion™ adjustable blade clipper features lithium ion power for up to two hours of cord-free, non-stop grooming in four popular colors.

Your grooming needs require the right motor.

Andis products are among the best cutting, smoothest running and most durable found anywhere in the world. Each utilizes expertly developed motor technology designed to complement the application, ensuring maximum performance. So which type of motor should you choose? Whether magnetic, pivot or rotary motor, your Andis selection will deliver the high-quality results you've come to expect when you pair the correct motor with the right application.

MAGNETIC MOTORS.

Reliable Power & High Blade Speed—for light body grooming

Magnetic motors run at high speed resulting in smooth cuts. Light textures of hair will feed and cut well with magnetic motor clippers. Less moving parts make these simple, reliable and the longest lasting of all the motors.

PIVOT MOTORS.

High Power & Lower Blade Speed—for complete body grooming

Pivot motors have a lower blade speed than magnetic motors but are twice as powerful. Higher cutting power makes them ideal for cutting thick or heavy hair. They are whisper quiet, cool running and long lasting.

ROTARY MOTORS.

High Power & High Blade Speed—for a wide range of grooming

Rotary motors have an equal amount of power and blade speed. They are also the only motor available with multiple speeds. Their balance between power, speed, size and weight makes them extremely versatile and perfect for heavy-duty cutting.

PROFESSIONAL PET GROOMING PRODUCTS

If you love what you do, we have something in common.

You do it for the beauty of the animal, the friendly wagging tail and the owner who wants the very best for their pet. At Andis, we understand completely. You can see it in the broad range of grooming tools, blades and accessories that enables you to create the perfect look and the ideal finish. We can see it in the results you achieve and the satisfaction it gives you.

TIP

To create the side skirt for a Westie, always start with a freshly washed and brushed dog. The side skirt begins just at the widest part of the ribcage, meaning that is where you will want to blend off your clipper work. The skirt should be under that line. Be careful to not confuse the pattern with the American Cocker Spaniel or Schnauzer by leaving the skirt too high or too low. You will want the dog to look as natural as possible, so use a longer blade or even attachment combs that are closer to the breed standard length. Clipping the hair with the direction that it lays will help prevent lines, also carding the clipper work and pattern lines will aid in better blending, preserving the texture and color.

TIP

Creating short, puppyish ears is one way that you can help make an older dog look younger. To achieve this look, always start with a freshly washed and brushed dog. Use a #4, #5 or #7 ShowEdge® blade and start clipping where the ear starts to fold. When rounding the head, use your thinning shears to trim the fill of hair on top of the fold; this helps to give the ear set better balance and give the dog more expression.

TIP

The easiest way to clip the pattern on a Portuguese Water Dog's lion tail is to stand the dog up, naturally fold the tail over its back and stop the clipper work where the tail lines up with the hip bones. Sometimes pet's tails are too long or too short. If this is the case, leaving 25% of the tail will give the lion look you are trying to achieve. Always start with a freshly washed and brushed dog.

Maintenance Products

Andis® Clipper Oil

12501

Use Andis clipper oil to lubricate and clean blades. Brush hair from the blades, add a few drops and wipe away excess oil with clean cloth. Hang or store your Andis clipper with the blades down to prevent excess oil from entering the clipper body.

Cool Care Plus®

12750

Cool Care Plus is a 5-in-one coolant, lubricant, cleaner, rust preventative and disinfectant (virucide, fungicide, bactericide and tuberculocide) with a country-fresh scent. Do all of this in one step without removing the blade from the clipper. The SureGrip™ sculpted can is easy to hold, and its high-pressure comfort tip nozzle quickly sprays hair out of blade teeth.

Blade Care Plus®

12590 (Bottle) & 12570 (Jar)

In just 10 seconds, Blade Care Plus leaves blades clean, lubricated and cool for optimal performance. Formulated for use by hair stylists, barbers, animal groomers and veterinarians, this 7-in-one, Vitamin E enriched formula cools, deodorizes, lubricates, cleans, prevents rust and decontaminates. Dip any detachable blade in the jar or conveniently spray blades to rinse away hair, buildup and preservatives.

Blade Brush

12415

The blade brush is a convenient, safe way to keep clipper and trimmer blades clean in between grooming. The broad bristle design ensures a clean blade in just a few strokes.

Andis Merchandising Solutions.

An integrated system designed to sell.

When you see it on the shelf you know Andis means business. The coordinated Animal Products packaging system is bright and energetic, professional in appearance, and above all—visually distinctive. It validates the premium Andis brand and speaks to different audiences in a way that invites more interaction.

What consumers need to know at point of sale.

To make a good purchase decision consumers and grooming professionals must be able to compare product features faster and have questions answered clearly. Andis packaging has been designed and tested to do exactly that. Information is presented in a concise, organized manner—all to help make better informed decisions faster.

If you show it, show it like a pro.

When you see the ProGrade badge on Andis packaging you'll know it's designed for the needs of professional groomers. Likewise, the ShowGrade badge is your assurance of a heavy-duty tool that meets the demands of the show circuit.
